

Treesonous 5G Culling Our Trees

Tue 8:27 am UTC, 19 Jun 2018
posted by NPP

7800 additional ha of heathland is planned for the UK. Apparently we have targets to fulfill. Have you heard of the EU habitats directive or the CBD?

Gossiter Gonad reports from the field on the Suffolk-Norfolk border where Suffolk Wildlife MisTrust in conjunction with CBD, the Convention of BioDiversity aka Agenda 21 and the global carbon cult are rolling out directives and programmes to manage our countryside.

At
<http://www.wood-wide-web.net/index.html>

.... you can find useful information; a local has created this website wood-wide-web to present research about the culling of trees and so called management of local countryside...
